

d-c-fix®

**Decorative window films /
Functional films**

DECORATION + PRIVACY PROTECTION

Do you want to protect yourself from the prying eyes of neighbors and still give your windows that special something? Then window films from d-c-fix® are the right solution. Here, great designs are combined with elegant privacy protection.

PROTECTION COMBINED WITH FUNCTION

Do you love your apartment, but in the summer months do your four walls turn into a sauna? Then the d-c-fix® tinting film can be a cost-effective solution. The other d-c-fix functional films can also provide quick relief in numerous situations. The mirror privacy film, for example, is a great way to elegantly keep away prying eyes in your home. It offers privacy without blocking the view to the outside.

Overview of the various films

The window films from d-c-fix® are available in self-adhesive and static versions. They differ in terms of their functional properties. Here is the most important information at a glance:

static Premium

The static PREMIUM window films from d-c-fix® also offer trendy and winning designs, as well as combining decoration with privacy. In addition, they protect against UV radiation. The special feature of this collection: The films are thicker and are therefore even easier to process.

static

The static glass films from d-c-fix® are also available in many modern designs. They combine decoration with privacy protection, as well as offering functional benefits such as UV protection. Processing is very simple, as no adhesive is required.

transparent

The transparent glass films from d-c-fix® are available in numerous designs and serve as decoration and privacy protection at the same time. The films are self-adhesive and are suitable for a variety of indoor applications such as the beautification of kitchen windows.

Functional films

If the focus is on functional aspects such as protection against heat, the functional films from d-c-fix® are an attractive solution, because the static-adhesive or self-adhesive functional films offer protection against heat, glare or glass breakage, as well as providing privacy.

Application

1. Measure the window, leaving out the seals

2. Measure and cut the film

3. Spray window liberally with application solution.

4. Peel off the backing paper/film completely

5. Apply the film to the window and move it into position

6. Squeeze out water completely with the squeegee.

Tips & tricks for application

You can find more videos about the application on our You Tube channel

Application made easy

With our d-c-fix® **Application Kit** and the d-c-fix® **Application Solution**, applying the films couldn't be easier!

Privacy protection meets decoration

Achieving great changes through simple actions and on a small budget – made possible by window films from d-c-fix®. Whether for a decorative upgrade of glass surfaces or a privacy screen, the static and self-adhesive glass films from d-c-fix® can remedy the situation and provide an elegant way to keep out prying eyes – for example with the help of elaborate patterns or a frosted glass effect. If the focus of the window design is on functional aspects such as protection against UV rays or heat, the functional films from d-c-fix® are the solution of choice.

Quick and easy:

Peel off, attach, that's it

Can be used on existing glass surfaces

No need to replace glass or windows necessary

Cheap and convenient alternative to real frosted glass

Installation without expensive specialist personnel

Opaque and yet translucent
